RAZR Disc Drill

IMPORTANT:

ALL ITEMS ARE IDENTIFIED WITH A PART NUMBER. Some of the smaller parts such as bolts, nuts, washers, etc. are not all shown, however, the quantity used are listed in the text for that section which they fit into. That particular quantity is always the quantity required for one complete assembly.

Smaller parts, which are welded together to construct a larger part, are not to be ordered as individual pieces, unless they have a part number to identify them.

Contact your nearest dealer for genuine repair parts. Dealers carry ample stock and are backed by the manufacturer and regional associations.

Important

The following safety procedure must be followed to eliminate possible damage to the machine when initially filling wing lift cylinders.

Operate hydraulic on tractor until wings *"just start to lift"*. Then reverse hydraulic on tractor to fill opposite end of cylinders and remove air from the hydraulic system.

Note: This applies to wing lift cylinders only.
